Esri resources for your organization

Course introduction

Course introduction
Course goals
Installing the course data
Icons used in this workbook

1 Introducing ArcGIS Knowledge

Lesson introduction
Introduction to ArcGIS Knowledge
ArcGIS Knowledge in the ArcGIS Enterprise environment
What can you do with ArcGIS Knowledge?
Using knowledge graphs in your work
The ArcGIS Knowledge investigation
Exercise 1: Examine a knowledge graph
- Open an existing investigation
- Examine the data model
- Examine an entity
- Examine a query
- Examine a link chart
- Examine the knowledge graph service

Lesson review
Answers to lesson 1 questions

2 Modeling data

Lesson introduction
Data modeling
The data modeling workflow
Knowledge graph elements
Classifying elements of a data model
Drawing a data model
Exercise 2: Develop a data model
- Describe the data
- Classify and draw the data model
- Add detail to the data model
- Test the data model

Lesson review

Answers to lesson 2 questions

3 Preparing data

Lesson introduction
Supported data types
Data preparation
Evaluating structured data
Exercise 3: Prepare structured data
- Examine a data model
- Determine entity fields
- Assess a structured dataset

Approaches for preparing unstructured data
Preparing unstructured data
Lesson review
Answers to lesson 3 questions

4 Loading data

Lesson introduction
Data loading methods
Loading data in ArcGIS Pro
Exercise 4A: Load data into a new knowledge graph
- Create a knowledge graph
- Create entity types
- Create relationship types
- Assign properties
- Assign spatial geometry
- Save a data loading configuration

Adding supporting information to a knowledge graph
Investigating data in a knowledge graph
Exercise 4B: Review a data model in a knowledge graph
- Use the histogram to filter data
- Add documents to a knowledge graph
- Add provenance to a knowledge graph
- Modify properties
- Search for an entity

Lesson review
Answers to lesson 4 questions

5 Managing data

Lesson introduction
Knowledge graph data management

Automating data management for a knowledge graph
Exercise 5: Manage data in a knowledge graph
- Create a new entity type
- Create a new relationship
- Create a new entity
- Use a saved data loading configuration
- Create a new link chart
- Edit data in a link chart

Lesson review
Answers to lesson 5 questions

6 Performing graph analysis

Lesson introduction
Graph analysis with ArcGIS Knowledge
Types of graph analysis
Choosing a type of graph analysis
Interpreting graph analysis results
Exercise 6A: Analyze knowledge graph data in a link chart
- Explore connections in a link chart
- Find filtered paths
- Filter paths on relationship properties

Visualization for knowledge graphs
Exercise 6B: Apply visualization techniques to a knowledge graph
- Change a link chart layout
- Manually modify a link chart layout
- Modify link chart layer symbology
- Add a link chart to a shareable format

Lesson review
Answers to lesson 6 questions

7 Querying data

Lesson introduction
Finding information in a knowledge graph
The openCypher query language
Identifying parts of a query
Using graph queries
Using spatial operators in queries
Exercise 7: Query a knowledge graph
- Construct a basic query
- Construct a path query
- Add a subquery
- Use a spatial operator in a query

Save a query
Lesson review
Answers to lesson 7 questions

8 Conducting spatial analysis

Lesson introduction
Spatial analysis with a knowledge graph
Using data from multiple sources for analysis
Exercise 8A: Analyze a knowledge graph in a map
Add a knowledge graph to a map
Modify a knowledge graph in a map
Conduct spatial analysis with a knowledge graph layer
Incorporate spatial analysis with nonspatial information
Checkpoint
Answering spatial questions with knowledge graphs
Exercise 8B: Use ArcGIS Knowledge to solve a business problem
Create a new knowledge graph
Add data to a knowledge graph
Add a knowledge graph to a map
Use spatial analysis tools with a knowledge graph
Create relationships using a data load
Query the knowledge graph
Manage data in a knowledge graph
Add a document as provenance
Lesson review
Answers to lesson 8 questions

Appendices

Appendix A: Esri data license agreement
Appendix B: Answers to lesson review questions
Appendix C: Additional resources
